* Synthetic fabrics are sold under a number of different names, the tag may say: polypropylene, capilene, MTS, dri-FIT, vapor wick, etc. It does not have to be outdoor adventure specific; Underarmor, Nike, etc. will work perfectly. Synthetic clothing can be found at REI, Great Outdoor Provisions Co., Target, Dick's stores. Also, there are many online stores that have outdoor equipment on clearance such as sierratradingpost.com. General sporting goods stores (e.g. Dicks) will also have synthetic clothing. Wool is also acceptable as it will keep you warm even if it gets wet. Always check with friends to see if they have any of the clothing on this list. It is always cheaper to borrow than to buy!
